WHAT BUSINESSES AT THIS STAGE EXPERIENCE

You get referrals and inbound interest, but conversion is inconsistent. The strong months feel earned, and the flat months feel unexplained.

WHAT YOU'RE DOING WELL

You have a real presence, a professional surface, and enough proof to be taken seriously in a first meeting.

WHAT PREVENTS THE NEXT STAGE

Your systems for discovery, capture, and retention are not yet doing work between conversations. Growth still depends on you being in the room.

THE GOOD NEWS

You're one focused sprint away from the next stage. The gaps are specific, sequenced, and fixable — no rebuild required.
